

THE LIVE MACHINE

# merish5

**Play, mix and record on Midi, Mp3 and Video files,** everything you need to play and sing at the highest levels.

Merish5 is the best in stand alone devices for reading, archiving and playing back digital Backing Tracks.

## ■ THE NEW SOUND OF MERISH5

Merish5 contains a brand new sounds database, specifically designed for live performances with Backing Tracks. Connect a USB Master Keyboard powered by Merish5 and it is ready to play. Merish5 offers uncompromising performance in terms of control and management of music archives.

## ■ ON THE INTERNET IN FEW AND SIMPLE MOVES

Thanks to Xynthia Os Merish5 connects to the Internet via Wi Fi to browse through the archives of the [www.songservice.it](http://www.songservice.it) website. The Backing Tracks can be downloaded very quickly and, thanks to the AllSongs subscriptions, you will have access to a vast, constantly updated repertoire.

**MERISH5** THE LIVE MACHINE!

## MERISH5

Merish5 includes a Backing Track reader and manager for different formats: Midi File, Mp3, Video. It can easily store more than 250,000 files. 128 GB solid state internal storage. High-sensitivity touch screen.

## DIGITAL MIXER

For those who play live without complications, Merish5 offers a Mixer with 2 Microphone inputs, 2 Line inputs, management of the two internal backing track channels, Click output for metronome, Monitor or Headphone output.

## EQUALIZER AND MULTI-EFFECT

Merish5 has a powerful, fully adjustable equalizer. It has an independent multi-effect for backing tracks and voice, a 4-voice Harmonizer.

## EDITING

Merish5 can edit any parameter of the Backing Tracks and can write and synchronise lyrics within Songs. It also manages Markers and Chords in various formats, even overlapping on the text.

Merish5 contains 500 Timbres, 50 Drum Kits, and hundreds of percussion sounds.

## DIGITAL RECORDER

Merish5 is a powerful digital recorder. It is very easy to use and, once you have adjusted the volumes of the various sources, simply press REC to start recording your performance.

## WEB CONNECTION

Merish5 connects to the Internet very easily: via Wi-Fi Stick, via Ethernet cable, or with Android phones. Once you are connected to the Merish5 network, you can go to [www.songservice.it](http://www.songservice.it) and choose the music repertoire from tens of thousands of Songs. Flat or Single Download subscriptions available.

APPs that connect Merish5 to the outside world will be available soon! STAYTUNED!
